DEWAN'S OFFICE
23 APR 1929

My dear Mirza

D.M. No. 882

We have had under discussion in the Improvement Trust Board this morning a case that affects the compound of Wellington Lodge, and I hope you won't mind my making that the occasion for addressing you on the whole question

I presume that the use of this historical building as a school is only a temporary arrangement for I am sure that you will agree that the present condition of this building which bears the name of one of the Empire's greatest men is very regrettable and that it is not desirable to show it as one of the sights of Mysore as long as it remains in its present condition

I can quite realise that, in the present state of your finances, it may not be possible to build a new building for the school for some time to come but I hope you will agree that it will be very desirable as soon as funds become available to remove the school out of these premises and allot them to some other purpose under which it will be possible to maintain the building and surroundings in better order

One such purpose would be to give a suitable house to the Public Library regarding the allocation of which in the Town Hall I understand fresh difficulties have arisen If this were done the compound could be turned into a public park

Meanwhile a question has arisen regarding the disposal of a certain part of the compound You will see from the plan which I enclose that there is included between four roads a complete oblong with a storm water drain running through it and the question was raised at the Improvement Trust meeting this morning of the transfer of the triangle lying to the North of the drain to the adjacent householder The Board however at my instance agreed that if the Government were prepared to take over the land and include it in the compound of

Wellington Lodge, the application would be rejected

My present purpose in writing to you is to ask whether you would be willing to direct that this triangle should be taken over and added to the compound of ~~the~~ Wellington Lodge Under present conditions it could with a little improvement be made available for a playing ground for the school Under future conditions in which I hope the building will be treated as a public monument it would be much better to have the whole of the symmetrical area of the compound retained rather than to have a triangle cut off at one corner and passed into private possession

I trust in these circumstances you will be prepared to direct that the land be added to the compound and improved at Government expense

Yours sincerely

C F Dimmer

Ill Member with Compliments
for favour of remarks

JM

I consulted the SPI about this. He says that the triangular bit might be added on to the Wellington Lodge compound and looked after by the Ensepto Wilson but he might be asked

PS- Please put up with the C

29th April 1929

My dear Sir Charles,

I have your D O letter No 1357 of the 22nd instant regarding the improvement of ellington Lodge at Mysore I do not think that the building would be suitable for a Public Library My own view is that the existing arrangement may be left to continue, the school authorities being got to take better care of the building and its adjoining grounds

I agree with you that the triangular bit of ground referred to in your letter may be taken over by Government and added on to the compound of ellington Lodge The Education Department can easily arrange for the premises being properly looked after Necessary orders will be issued on this matter

Yours sincerely,
